FM04 / FM05 Scalloped Decorative Fascia

1. Introducing the new Scalloped Decorative Fascia from Freefoam

2. For use on gable end or as normal fascia boards along roofingline

3. Available in Convex and Concave profiles in lengths of 5 metres

4. Use Plastops range of fixings to secure scalloped board to roofingline

Introducing Freefoam's new FM04 and FM05 scalloped decorative fascias which can be installed either on the gable end or as regular fascia. The profiles come in Convex (FM04) and Concave (FM05) styles which give the roofline an aesthetically pleasing finish.

The boards come in standard 5m lengths and are fixed to the roofingline using the Plastops fixing system. Available in white, the profiles are

manufactured using a lead-free advanced calcium zinc formulation for increased colourfastness. They are covered by Freefoam's unique

20 year extended guarantee scheme when the installation is registered online at www.freefoam.com (see website for more details)
